# Call for Student Posters

Florida Section A&WMA

46<sup>th</sup> Annual Conference

South Seas Resort

Captiva Island, FL

October 4-6, 2009

University/college students are invited to submit abstracts on topics of environmental interest for presentation at a Student Poster Session to be held on October 4, 2009, during the Florida Air & Waste Management Association's 46<sup>th</sup> Annual Conference and Exhibition (ACE). Abstracts are limited to 300 words or less and must identify the title of the presentation, the name(s) of the authors, the level of participation (undergraduate or graduate), e-mail address and the full mailing address of the university/college. Abstracts must not be more than one (1) page in length and must be double-spaced. ***Adherence to this format is required*** – abstracts will be returned to students that do not adhere to this format! Acceptable abstracts will be compiled as-is into the conference book of abstracts and posted onto the website.

**Abstracts must be received by August 21, 2009**

Additional conference information is available at <http://www.flawma.com>.

Send abstracts in electronic format (MS Word) by e-mail to:

Jordan Haywood, Student Program Chair

[jordan.haywood@siemens.com](mailto:jordan.haywood@siemens.com)

407-736-3045

Students will be notified by September 4, 2009, if their abstract has been accepted. Participation in the poster session is limited to students. Faculty members may be listed as co-authors, but the student must be the principle author and the presenter.

The poster session and judging are scheduled for Sunday, October 4, 2009. Students will be advised prior to the ACE of the location at the South Seas Resort where they will be presenting their poster during judging (students must be present during judging).

The 2009 ACE provides an excellent opportunity for students to present research, interact with industry professionals and learn more about environmental issues. We hope to see you there!
